

## **MCG group Product Safety Global Policy**

1. We will analyze the impact of our products on health, safety, and the environment throughout their entire life cycle, and implement activities to minimize risk.
2. We will comply with laws, regulations, and agreements related to products safety we handle, and provide information necessary for our customers to use our products safely.
3. We will also ensure safety information and compliance on raw materials we use and support the development of sustainable products.

Department in charge

PSQA Division, Supply Chain, Mitsubishi Chemical Group Corporation
