

## **MCG group PS Chemicals Management Global Policy**

Mitsubishi Chemical Group Corporation is responsible for our Health, Safety and Environment in cooperation with stakeholders throughout the product lifecycle, from raw material procurement to product development, production, logistics and sales, use, recycling, and disposal. As a part of product stewardship activities, we will manage our product following Global Policy as below.

### **MCG group PS Chemicals Management Global Policy**

We will ensure the health and safety of all people involved in our business activities and strive to minimize the environmental impact.

- We strive to develop products with minimal health, safety and environmental risks throughout the product life cycle.
- We will provide information on product safety in a timely manner and promote the reduction of health, safety and environmental risks associated with the use of our products.
- We reduce product supply risks by purchasing raw materials from suppliers that comply with social responsibility.
- We promote to develop recyclable products and provide useful information how to handle end-of-life products.
